

NUVO[®]
Whole Home Audio

Fill your home with
high fidelity music.

Connect

The NuVo Wireless Audio System starts with a robust, dual band concurrent wireless Gateway (GW100), allowing the players to communicate with one another, access your music from the network, and stream audio from countless online options. To start the fun, simply connect the Gateway to your home network and a player to your favorite speakers. Easily expand the system by adding players in other zones, too.

Control

NuVo makes getting right to the music you love easy with the NuVo app. The players automatically display your favorite music services and artists for fast, simple browsing. In an instant, you have the world of music right at your fingertips.

Play

Designed by musicians, our state-of-the-art player amplifiers are optimized for lossless digital signal flow, ensuring that every detail of your music arrives to the speakers just as the artist intended. Easily access your iTunes and Windows Media libraries, streaming online radio stations, and content from your personal devices. Every zone can listen to its own selection or be synchronized. Welcome to your all-access pass to a limitless gallery of music.
